descriptions

MicroNeedling Stimulates collagen production in the skin while infusing treatment serums and topical fillers. Treats hyperpigmentation, fine lines, deep wrinkles, scarring and overall health of skin. No downtime.

Oxygen Treatment Deep penetration of oxygen and infusion of serums to hydrate, repair and treat skin with radiant, glowing results. Excellent in combination with dermaplane or microneedling!

NuFace Treatment Microcurrent technology tightens and lifts facial muscles and Red LED Light Therapy stimulates the production of collagen.

Dermaplane Complete skin resurfacing with immediately visible results with no downtime. Perfect for most skin types.

Lip Renewal Designed to improve lip hydration and minimize the appearance of lip lines by exfoliating the lips followed by a lip mask, lip peptide, and lip plumper.

Oxygenating Trio A peel alternative designed to exfoliate and draw oxygen to the skin's surface, resulting in a radiant, healthy look that can last for days
